

Expert Faculty

The expert faculty provide knowledge and expertise to the Limited Market Test (LMT) project team and sites. This will involve working with the project team in the design and set-up and execution phases of the LMT to:

- Support three primary care practices to successfully adopt the primary care features
- Capture with as much accuracy as possible the methods practices take to adopt the features
- Develop a scalable change package that organizations can use to implement the primary care features without requiring the same onsite support that is provided in the LMT

Josh Bennett

Principal of Integrated Clinical Services, Premier, Inc.

[1]

David A. Dorr

Professor and Vice Chair in Informatics, Oregon Health & Science University

[2]

Marc Hoffing

Medical Director, Desert Oasis Healthcare

[3]

Richard J. Holden

Assistant Professor of BioHealth Informatics, Indiana University School of Informatics and Computing

[4]

Kevin Little

Principal, Informing Ecological Design, LLC

[5]

Lauren Murray

Director of Consumer Engagement and Community Outreach, National Partnership for Women and Families

[6]

Laurie Lovett Novak

Assistant Professor of Biomedical Informatics, School of Medicine, Vanderbilt University

[7]

Jennifer Sweeney
